

2009 National Conference on Microwave and Millimeter Wave in China
2009 Microwave Industry Exhibition in China

Sponsors:

Chinese Institute of Electronics (CIE)

Co-Sponsors:

Microwave Society of Chinese Institute of Electronics (CIE)

Xidian University

China Academy of Space Technology (xi'an)

Air Force Engineering University Missile Institute

Kingradio Technology [Shenzhen] Co., Ltd.

Xi'an HengDa Microwave Technology Company

Ansoft Company

Collaborating medias:

Journal of microwaves(Chinese), Mobile Communications (Chinese), Microwave Journal (mwjournal)

Microwave online(kilomega), Microwave and RF network (Mrfn), Eefocus

Conference / Exhibition date: May 23-26, 2009

Conference / Exhibition venue: Xi'an Qujiang International Conference and Exhibition Center, China

There will be more than 500 conference delegates attend this conference (Specialized visitor will exceed one thousand people), as the conferees are experts、 design engineers and scholars in the field of Microwave and Millimeter wave ,they will be the most professional visitor .

This will be another grand exhibition after “2008 Microwave Industry Exhibition” in Nanjing China!

Why you should attend?

- MIE 2009 is the largest event of microwave field in China, which is organized by Microwave Society of Chinese Institute of Electronics•
- MIE 2009 is where to provide a nice opportunity for the scientists and engineers specialized in the field of Microwave and Millimeter wave to present your new ideas and learn from each other .
- MIE 2009 is where to provide a platform for enterprises engaged in Microwave Millimeter wave and RF field to publicize your company/ products in China .

Exhibitors to be attended:

- Fabricator / distributor for RF / microwave / millimeter wave devices / components: solid state device and circuits (including MMIC): amplifiers, mixers, oscillators, etc. and passive components: filters, duplexers, couplers, attenuators, and antennas etc.
- Designer / distributor for RF / microwave / millimeter wave software
- Fabricator / distributor for RF / microwave / millimeter wave equipments
- Fabricator / distributor for RF / microwave PCB and connectors.
- Fabricator / distributor for microwave absorber
- Fabricator / distributor for microwave / millimeter inductor, capacitor and high power resistor.
- RF / microwave / millimeter related press and media.

Looking forward to seeing your company taking part in the exhibition!

Standard booth: 3 m × 3 m,

will consist of one board with company name, one table, two chairs and so on.

Customized booth: From 36 m²

Empty area, you can customize the booth to highlight your company / products.

Notes:

- The exhibitor will have a chromatic page of introduction in the exhibition handbook, which is free.
- Two packs of lunch will be provide for standard booths, four packs of lunch will be provided for customized booths.
- A list of conferees and professional visitor will be provided.

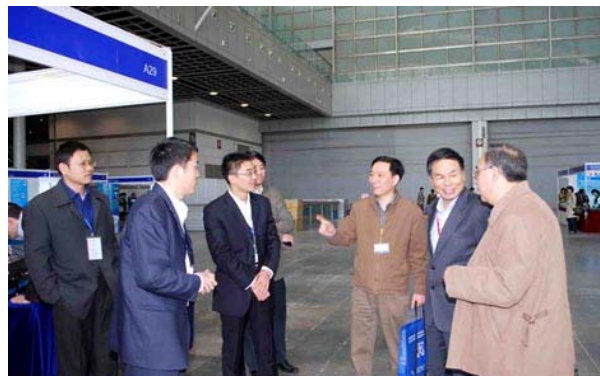

Background of Microwave Industry Exhibition in China

The Microwave Industry Exhibition has already been held over 10 years. It is held every year, with the National Conference on Microwave and Millimeter Wave in China every odd year, and with the International Conference on Microwave and Millimeter Wave Technology every dual year. The goal is to provide a platform for enterprises engaged in Microwave Millimeter wave and RF field to publicize your company/ products.

Background of National Conference on Microwave and Millimeter Wave in China (NCM)

- NCM is China's largest conference on microwave and millimeter wave technologies. It is organized by Chinese Institute of Electronics (CIE) and held every two years (odd year).
- NCM 2009 will be held in Xi'an, P. R. China, on May 23-26, 2009
The proceedings of the conference will be published by Publishing House of Electronics Industry of China.
- NCM 2009 will surely attract a large numbers of scholars and industry companies from China (Mainland), Hong Kong, Macao and Taiwan. It is a great opportunity for publicizing your company / products.

Xi'an is the largest hub of research and development of RF / microwave / millimeter wave products in China. There are many famous universities, institutes and factories in this area, including Xidian University, Xi'an Jiaotong University, Northwestern Polytechnical University, Air Force Engineering University, China Academy of Space Technology (xi'an), 4th Research Institute of Telecom Science and Technology, 20th and 39th Research Institute of China Electronics Technology Group Corporation, 206th Research Institute of China Arms Industries Group Corporation, Xi'an Microwave Research Institute of Huawei Technologies Co., Ltd. and Xi'an Microwave Research Institute of ZTE Corporation ,etc.
